

**Durasein**  
Time for  
a Getaway

## The Project

**The Getaway Brewing Company**  
**Dublin, Ohio**  
**Completed 2021**

- Hospitality Sector
- Design by Dune House Creative
- Photographer - Kate Horgan
- Application: Table tops and bar tops throughout space
- Material: Bianca Sabbia, DM5018

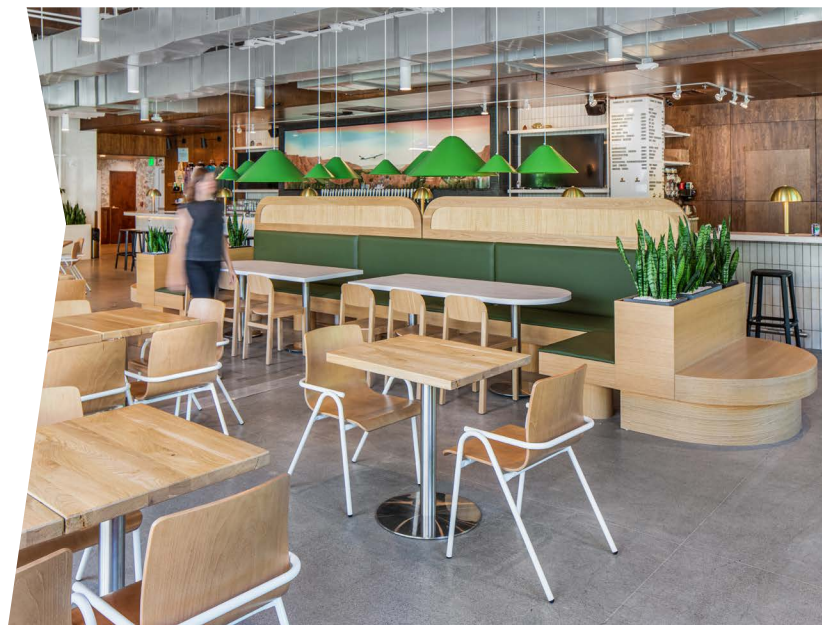

## The Challenge

Getaway Brewing Company wanted to become a destination for adventurous beer, wine, and cocktail drinkers, serving globally-inspired beverages to remind guests of their favorite travels. They supported that sense of escape and "getting away" by imbuing their small business with a vacation-like atmosphere capturing West Coast and Australian vibes.

## The Result

Surrounded by plants and natural light from the greenhouse, the curved shapes and sandy colors of Durasein solid surface blend with Stucco walls, oak furniture, rattan millwork, oak furniture, and dioramas to transport people from central Ohio to the locales of their dreams. "Airplane windows" also enhance the sense of a getaway, whisking people away from the stresses of their everyday lives.

“I requested a sample and loved it the moment I saw it! It had such a lovely feel.”

– Jenine Monks,  
Dune House Creative

### Materials

Designer Jenine Monks chose Durasein solid surface material in Bianca Sabbia for the bartops, banquette tables, and restroom vanities because “it really spoke to the coastal vibe we were going for. Besides the look of a travertine, it has such a wonderfully soft feel underhand, and great variation to hide wear and tear, especially at a bar. The owners get compliments all the time.”

### Durasein in Hospitality

With style, sanitation, and toughness galore, Durasein solid surface has it all. It's 100% food-safe and non-toxic, along with being naturally anti-bacterial. It's also easy to clean, resisting stains, chemicals, mold, and mildew. It even stands up to scratches, dents, heat, and fire, staying fresh and appealing for guest after guest.

See why Durasein solid surface is the perfect choice for restaurants and other high-performance spaces by visiting us online.
